WE MAKE BUILDING EASY.® When you build a Veridian home, you get much more than a home designed around you and your dreams. You get the peace of mind that comes with nationally-recognized, award-winning, quality craftsmanship and energy efficiency. You get a home that's constructed using innovative building materials as well as the newest technology and building practices. The result is a high-performing, green and energy efficient home that's a healthier home for you and your pocketbook. And when you build with Veridian Homes, you build with a team of specifically trained experts who make homebuilding easy.

Dream. Build. Live.

Second Floor with 4 Bedrooms

Second Floor with 3 Bedrooms

THE EVEREST IS ONE CRAFTY HOME. Outside, it welcomes you like a cozy cottage. Step through the front door and it greets you more like a grand estate. To your right, a tucked-away den. Ahead, a massive great room. Off the garage, a laundry room to keep muddy boots, snowy coats and wet dogs at bay. The pleasant surprises continue with the four – four! – roomy bedrooms upstairs. And delighted smiles are pretty much guaranteed when you see your walk-in closet.

Features

- Kitchen open to living and dining areas
- Kitchen island with breakfast bar and sink
- Flex room for formal dining, office, etc.

- 2x6 Framed Walls, 24 on Center
- Tyvek® House Wrap
- Advanced Air Sealing
- Spray Foam Insulation
- Weather Max® Adhesive Membrane

\$296 IN SAVINGS EVERY MONTH!*

A LOOK INSIDE THE EVEREST'S ENERGY EFFICIENCY. Lower index = higher efficiency. What does that mean to you? A HERS Index is the industry standard by which a home's energy efficiency is measured. It is also the nationally-recognized system for inspecting and calculating a home's energy performance. A Veridian home receives a rating 56 HERS or better, averaging 51 HERS, compared a typical old used home, which rates at 130 HERS – that's greater than a 70% increase in total energy performance. This means that your dream home will not only look like a dream, but it will run like one too.

*Estimated average monthly energy bill savings with the Everest. The costs were calculated using REM/Rate™ 12.97 and the HERS Score for the reference homes listed in the arrow chart and were published by RESNET, as compared to the typical used home. The typical used and new home scores were determined by the U.S. Department of Energy.
