WE MAKE BUILDING EASY.® When you build a Veridian home, you get much more than a home designed around you and your dreams. You get the peace of mind that comes with nationally-recognized, award-winning, quality craftsmanship and energy efficiency. You get a home that's constructed using innovative building materials as well as the newest technology and building practices. The result is a high-performing, green and energy efficient home that's a healthier home for you and your pocketbook. And when you build with Veridian Homes, you build with a team of specifically trained experts who make homebuilding easy.

Dream. Build. Live.

DESIGN STUDIO: 6801 South Towne Drive | PHONE: 1.800.726.7397 | WEB: VeridianHomes.com

HERE'S A HOME CENTERED ON BEING THE LIFE OF THE PARTY. The Atwood's sophisticated curb appeal will immediately draw in your guests. Stash coats away in the foyer closet. Keep everyone in the conversation, while seated around the angled kitchen island. And you know that dining bump-out is going to come in handy for dinner parties. Just make sure you've stocked the walk-in pantry with the good stuff. Now, can someone please pass the Brie?

- Spray Foam Insulation
- Weather Max® Adhesive Membrane

\$296 IN SAVINGS EVERY MONTH!*

A LOOK INSIDE THE ATWOOD'S ENERGY EFFICIENCY. Lower index = higher efficiency. What does that mean to you? A HERS Index is the industry standard by which a home's energy efficiency is measured. It is also the nationally-recognized system for inspecting and calculating a home's energy performance. A Veridian home receives a rating 56 HERS or better, averaging 51 HERS, compared a typical old used home, which rates at 130 HERS – that's greater than a 70% increase in total energy performance. This means that your dream home will not only look like a dream, but it will run like one too.

*Estimated average monthly energy bill savings with the Atwood. The costs were calculated using REM/Rate™ 12.97 and the HERS Score for the reference homes listed in the arrow chart and were published by RESNET, as compared to the typical used home. The typical used and new home scores were determined by the U.S. Department of Energy.
