WE MAKE BUILDING EASY® When you build a Veridian home, you get much more than a home designed around you and your dreams. You get the peace of mind that comes with nationally-recognized, award-winning, quality craftsmanship and energy efficiency. You get a home that's constructed using innovative building materials as well as the newest technology and building practices. The result is a high-performing, green and energy efficient home that's a healthier home for you and your pocketbook. And when you build with Veridian Homes, you build with a team of specifically trained experts who make homebuilding easy.

Dream. Build. Live.

First Floor

Second Floor

The Kennedy

YOUR FIRST APARTMENT HAD...CHARACTER. This owner's suite has...everything your first apartment didn't. First on the list is space. Second is an enormous walk-in closet. Third is your very own bathroom with a dual bowl vanity and linen closet. Fourth is lots of light (it's a corner bedroom with lots of windows). And we haven't even told you about the rest of the house. Let's just say that your first apartment was your first for a reason.

CERTIFIED HIGH-PERFORMING HOMES
BUILDING ENERGY EFFICIENT, GREEN HOMES SINCE 2001

\$179
IN SAVINGS

ESTIMATED AVERAGE MONTHLY ENERGY BILL SAVINGS WITH THE KENNEDY*

A LOOK INSIDE THE KENNEDY'S ENERGY EFFICIENCY. Each point decrease in the HERS Index means a 1% reduction in energy consumption. Based on this, the Kennedy is 71% more energy efficient than a typical used home. The HERS Index is a scoring system created by the Residential Energy Services Network (RESNET), and provides comparable energy efficiencies in various homes. Only a RESNET certified independent energy rater can determine a home's score. This energy scale is based on the U.S. Department of Energy's EnergySmart Home Scales. Actual energy savings may vary depending on a number of factors including the number of people living in the household, consumption habits, age/condition of electronics and appliances used, and lifestyle; and are not guaranteed.

*Estimated average monthly energy bill savings with the Kennedy. The costs were calculated using REM/Rate™ 12.97 and the HERS Score for the reference homes listed in the arrow chart and were published by RESNET, as compared to the typical used home. The typical used and new home scores were determined by the U.S. Department of Energy.
