WE MAKE BUILDING EASY® When you build a Veridian home, you get much more than a home designed around you and your dreams. You get the peace of mind that comes with nationally-recognized, award-winning, quality craftsmanship and energy efficiency. You get a home that's constructed using innovative building materials as well as the newest technology and building practices. The result is a high-performing, green and energy efficient home that's a healthier home for you and your pocketbook. And when you build with Veridian Homes, you build with a team of specifically trained experts who make homebuilding easy.

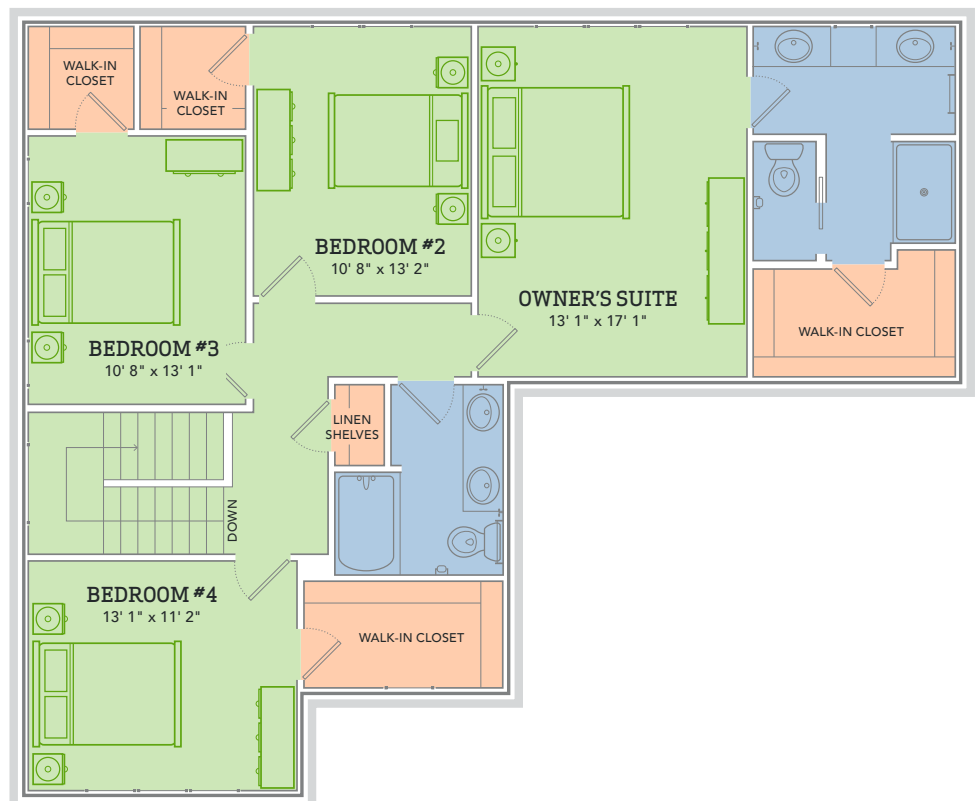

Dream. Build. Live.

The Atwood

HERE'S A HOME CENTERED ON BEING THE LIFE OF THE PARTY. The Atwood's sophisticated curb appeal will immediately draw in your guests. Stash coats away in the foyer closet. Keep everyone in the conversation, while seated around the angled kitchen island. And you know that dining bump-out is going to come in handy for dinner parties. Just make sure you've stocked the walk-in pantry with the good stuff. Now, can someone please pass the Brie?

- Additional green materials/products
- Personalize your home with thousands of options found within our Design Studio

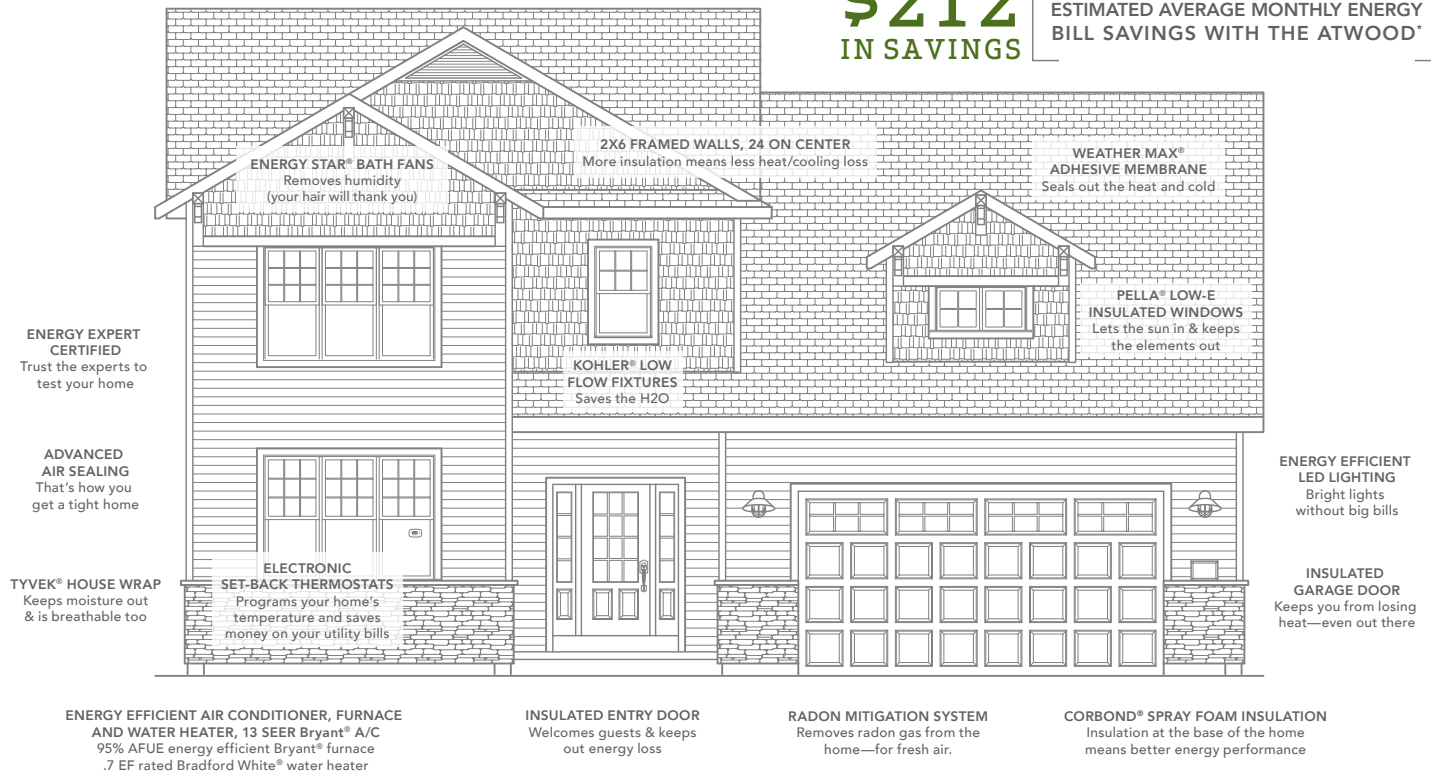

CERTIFIED HIGH-PERFORMING HOMES
BUILDING ENERGY EFFICIENT, GREEN HOMES SINCE 2001

\$212
IN SAVINGS

ESTIMATED AVERAGE MONTHLY ENERGY BILL SAVINGS WITH THE ATWOOD*

A LOOK INSIDE THE ATWOOD'S ENERGY EFFICIENCY. Each point decrease in the HERS Index means a 1% reduction in energy consumption. Based on this, the Atwood is 73% more energy efficient than a typical used home. The HERS Index is a scoring system created by the Residential Energy Services Network (RESNET), and provides comparable energy efficiencies in various homes. Only a RESNET certified independent energy rater can determine a home's score. This energy scale is based on the U.S. Department of Energy's EnergySmart Home Scales. Actual energy savings may vary depending on a number of factors including the number of people living in the household, consumption habits, age/condition of electronics and appliances used, and lifestyle; and are not guaranteed.

*Estimated average monthly energy bill savings with the average Veridian home. The costs were calculated using REM/Rate™ 12.97 and the HERS Score for the reference homes listed in the arrow chart and were published by RESNET, as compared to the typical used home. The typical used and new home scores were determined by the U.S. Department of Energy.
